

KS3 ASSESSMENT

A baseline assessment of students in each year group (this year only) will take place at the start of the year. The assessment will take place over three lessons. In future years the baseline assessment will only be necessary in Year 7 but we may continue it in Years 8 &9.

Throughout each unit students will receive a mark for each assessment objective with an overall band given on completion of the project. When marking homework the teacher will make clear which assessment objective their work relates to.
