

Dear D of E Participant,

**Energy Envoys**, which is spotlighted in [DofE's spring 2016 Magazine](#) (p29), is a **new volunteering opportunity** which enables young people to help their community to use energy more wisely, save money and reduce carbon emissions.

We understand that volunteering opportunities can sometimes be harder for young people to find compared with other DofE activities, but Energy Envoys is flexible enough to cater for all:

- Bronze, Silver or Gold
- Nationwide
- Individual or group volunteering
- Online energy tutorial
- Step-by-step guides
- One-to-one email support

Through their volunteering, participants could conduct an energy audit, organise an energy awareness campaign or run an energy saving competition. There are step-by-step guides for all sorts of projects which can be carried out in, for example, a local school, college, church, business, shop or venue.

Energy Envoys is endorsed by the UK's leading professional engineering institutions and is provided by the National Energy Foundation, a DofE Approved Activity Provider.

You can [download an introductory leaflet here](#) and hard copies are available on request.

Do support us by following [@EnergyEnvoys](#) on Twitter or [Energy Envoys](#) on Facebook.

Participants can find out more and sign up at [www.energyenvoys.org.uk](http://www.energyenvoys.org.uk)

All Best Wishes,

Gordon
